

Ready to Open Some Doors?

Why Hinges?

The only way to salvation is through Jesus. He is the only door into heaven and into the church. We receive salvation by grace alone through faith in Him. While there is only one Way into the church, there are many doors that lead back out into the community where large groups of lost people can still be found.

Hinges are necessary for doors to open. Without hinges, church doors are nothing more than walls. Equipped with hinges, however, the doors of the church can swing open to unlimited opportunities for reaching lost people with the Gospel.

Starting a New Life Cycle for Your Church

Churches are like people; they're born, grow up, and eventually they die. (The average lifespan for a church in North America is 80 years!) The difference is...people only get one life to live. Churches can have **multiple** life cycles! Learn how your church can become an exciting, new, outward-focused, community-impacting "mission outpost" by applying the 4 Biblical components of a new Life Cycle.

If you're ready to start opening doors in your community, you should attend this outreach event hosted and funded by The Lutheran Foundation.

The Reverend Doctor Terry Tieman
President & Executive Director of
Transforming Churches Network
